Peace Tower

A huge reproduction of the Imperial Crown of England will be placed this week on the Peace Tower, 60 feet above the entrance to the parliament buildings at Ottawa, in connection with the decoration scheme for the visit of Their Majesties. The crown, 17 feet high and weighing 1,200 pounds, will be illuminated at night by neon and multi-colored lights. Huge flags will be draped about the crown.

FOUR HOLIDAYS FOR PROVINCE OVER 3 WEEKS

Will Be Observed May 20, 24, 26, and June 2—Ruling On Stores

Within the next three weeks, four holidays will be celebrated in this province, three of which will be observed in the northern half of the province and three in the southern. One holiday does not apply to the north and one to south.

These days are: May 20, May 24, May 26 and June 2.

First of the holidays, May 20, is in observance of His Majesty's birthday. Actually this is on December 14, but by his own wish it is being celebrated this month. Last December a proclamation was issued at Ottawa to this effect. On that date, all Dominion and Provincial government offices and banks will be closed.

1939 ONLY

The proclamation sets this date for observance only in the year 1939. It will be more generally observed this year as on May 20. Their

Anglo-Turkish Defence Pact is Announced

By J. F. SANDERSON
Canadian Press Staff Writer

LONDON, May 12.—Another link was forged in Europe's peace chain today when Prime Minister Chamberlain announced in the house of commons a mutual defence agreement with Turkey, covering the Mediterranean.

400 SCOUTS TO ACT AS USHERS FOR BLEACHERS

Royal Visit Committee Lists 1,250 Accommodations

Four hundred boys will act as ushers in the Portage avenue bleachers, and High school students will serve at other points, under the general direction and supervision of members of the Junior Chamber of Commerce. The ushers will likely be distinguished by arm bands.

Average prices listed, it was stated by P. W. Abbott, chairman of the sub-committee on housing, range from \$1.00-\$1.50 for a single person, and \$2.00-\$3.00 for accommodation for two. In most cases this figure includes the price of breakfast as well.

Some of the people listing their homes as available state that tents may be pitched on their back lots, if desired.

ONLY TWO POINTS

Only two points in rural Alberta have written in to the accommodation committee asking that reservations be made. Mr. Baragar said. He urged that all those wishing

A definite and long-range military agreement will be concluded between the two countries, Mr. Chamberlain declared.

In the meantime, in the event of an act of aggression leading to war in the Mediterranean area, the two nations are prepared to co-operate effectively and lend each other all the aid and assistance in their power.

It was reported meanwhile that a similar agreement between France and Turkey will be announced shortly. It is understood the Franco-Turkish pact is being held up by negotiations between Paris and Ankara over French control of the Straits of Alexandria, strategic reports in Syria and formerly in Asiatic Turkey.

The Prime Minister announced that the Anglo-Turkish pact is being held up by negotiations between Paris and Ankara over French control of the Straits of Alexandria, strategic reports in Syria and formerly in Asiatic Turkey.

RECIPROCAL PACT

The Anglo-Turkish pact, which is reciprocal, covers the entire Mediterranean area. It means that if war starts anywhere through an act of aggression, and extends to the Mediterranean, Britain and Turkey will pool their resources.

The Prime Minister said the "two governments recognize it also is necessary to establish security in the Balkans and they are consulting together with the object of achieving this purpose as speedily as possible."

This arrangement does not preclude either government from making

Reduce Debt Says Justice

Exclusive to The Edmonton Bulletin

LLOYDMINSTER, May 12

"There should be compulsory reduction of debt," declared Honorable Chief Justice C. R. Mitchell of the Supreme Court of Alberta, speaking at a banquet of the Lloydminster Board of Trade Thursday evening on the Farmers' Creditors Arrangement Act. He is chairman of the board of review under the act.

Hon. Mr. Mitchell stated that the act would not appear to such disadvantage if everyone in effecting the legislation, knew the full operation and effect of the act.

"Consent settlements" were not satisfactory, the Chief Justice stated. They did not get to the root of the matter.

NOT A BANKRUPT

"A farmer who has very considerable assets but who cannot pay his debt, should not be looked upon as bankrupt. If such a farmer's indebtedness is in arrears, then he is not to meet his obligations, and as the act makes it possible for him to apply for reduction of debt and extension of time for payment," said Mr. Justice Mitchell.

"In such cases there should be compulsory reduction of debt," he continued. The board of review was the ideal way to effect this, because it settled all debts at the same time. In his experience the farmer was always optimistic that he could do better the next year, but conditions during the past few years had made this impossible.

Consent settlements, he added, were not satisfactory as in the majority of cases they dealt only with one debt, mostly the secured mortgage, and the rest of the mortgages were not touched.

He said the act was not a bankruptcy act, but a means to meet the second and third best solution.

NOT A DISADVANTAGE

"If everybody, including the legislators, knew as much about the act as the board of review does, the act would not be considered unjust, and the act would appear to be," Hon. Mr. Mitchell stated.

Outlining the activity of the board of review, he explained that many people think that when the debts are reduced some money

Father Who Put Son To Death In "Mercy" Act Acquitted In N.Y. Court

Weds Airman

NEW YORK, May 13—Louis Greenfield, once prosperous milliner who killed his infant son Jerome, 18, rather than see him suffer, was acquitted of a first degree manslaughter charge last night by a jury of married men and women, most of them parents, in Bronx County court.

Greenfield, who sobbingly testified the boy was a problem that even the greatest specialists could not solve, chloroformed him last August 12 after long deliberation. Doctors said the youth never regained mentally beyond two-year-old and that his mother, also a witness at the trial, was in danger of attack by him. The jury deliberated four hours.

Greenfield said he and his wife, Anna, planned to adopt a three-year-old child and "start a new life."

The father's worry, through 18 years, was compared by his attorney to "water dripping on a stone, drop by drop, wearing the stone down, year after year, week after week, awake or asleep, at every minute a stain on his mentality."

"You can't say guilty," the attorney told the jury. "After all, he did the moral thing."

In turn, Assistant District Attorney Lester W. Patterson charged the jury to acquit Greenfield if they believed his act was "the will of God in chloroforming the boy."

The jury comprised seven men and one woman, all married and all but one a parent.

Chamberlain Has Description Of His Discreet Wife

LONDON, May 12—Prime Minister Chamberlain gave a description of his wife yesterday in response to the welcome given her by the Conservative Women's conference, where Mr. Chamberlain spoke.

"She is the lady who knows all my secrets, who never lets me out, who gently corrects my faults, who never forgets to praise me, who never forgets to tell me things that I forget and who, for now nearly 30 years, has been my best friend and confidante."

NOTED SOLDIER URGES UNITED BRITISH FRONT

CALGARY, May 12—Col. A. Hamilton Gault, founder of the Princess Patricia's Canadian Light Infantry at the outbreak of the Great War in 1914 Thursday urged a united British front in an address here on "The European Situation."

Central powers of Europe do not pay much attention to those who just talk, he said, but only to those who talk with military strength. "If we can present a united British front, the opinion of Britons throughout the world can carry a greater weight."

War depends on ability of statesmen and diplomacy and it is no use of mobilizing public opinion unless we have the strength on which it can be supported, he said.

Mr. Gault said he had no doubt that the British Empire could not approach them to confessions of weakness and that he was appalled and killed in elevator "A" of the Hotelburn-Brown Grain Company.

Eighteen men—13 farmers and five workmen—were rushed to hospital. Eight of them were in serious condition.

CHICAGO, May 12—A series of blasts and roaring flames destroyed five huge grain elevators Thursday, wiped out all traces of eight missing men and caused damage in excess of \$3,000,000.

The first-most serious in Chicago since the \$5,000,000 stock yards conflagration of May 18, 1936—raged for five hours before it was brought under control by 400 firemen.

Even then the heat from the charred ruins was so intense, officials could not approach them to confessions of weakness and that he was appalled and killed in elevator "A" of the Hotelburn-Brown Grain Company.

SEA CAPTAIN GIVEN ISLAND FOR LOST ARM

Rule For More Than Century

WELLSFORD, N.B., May 12—Campbell Island, a part of New Brunswick's Charlotte County near the Maine border, was a final state for more than a century because the British government wanted to compensate Captain William Owen, of Wellsford, for the loss of an arm at the siege of Pondicherry in the East Indies.

The Passamquoddy Bay island, where President Roosevelt and members of his family have maintained summer homes for many years, was granted to Captain Owen by Governor Sir William Campbell of Acadia.

The captain, a picturesque figure, was minus an eye as well as an arm. He was a former political brawler. He wore a black patch over the cavity.

The founder of Campbell Island had plans in England to settle and improve the island. At Liverpool he bought and outfitted a vessel, christened the Snow Owl. With supplies, farm implements, building materials and settlers—mostly old campaigners who had fought under him—sailed for Passamquoddy Bay.

First seeing the island June 4, 1770, he proved the province and the first appearance of the island," he explained.

Under his able leadership a thriving settlement was formed. The next year, when Governor Campbell and Sir William Rich, an old friend of Owen, visited the island they found the captain had died in Madras, India, without seeing his principality, had an infant son. Rich stood godfather to the boy who was named Admiral Sir Edward William Campbell Rich Owen.

Soon afterward Captain Owen and his family left Campbell Island for England and France. The captain met death in Madras, India, without seeing his principality, had an infant son. Rich stood godfather to the boy who was named Admiral Sir Edward William Campbell Rich Owen.

Hopes Held for Jews To Find Colony Refuge

GEORGETOWN, British Guiana, May 12—A successful outcome of the British project to settle Jews in British Guiana is one of the "dearest hopes" of Lord-Cat. the Reverend John Howard MacDonald, Esquire, professor of Church History of Acadia University, Wolfville, N.S.

During a brief visit here the wartime padre said he was "personally greatly interested" in the project. Jewish settlement of European refugees Jews. He said he had not one of the commissioners studying the situation here and "I gathered the impression that he is deeply interested by the attitude of the local government and of the people here in general. Both have been keenly interested."

"If the project is successful, I hope it will be—it will be successful."

"Isn't it grand... just think... we're in Old England... lots of time to see everything... money to pay our way."

"And we can spend every last cent... for another cheque will come along next month... every month... as long as we live."

Ask the man or woman who has a Canada Life Income... it's glorious, when you close the desk for good and get right down to the business of really enjoying life... secure in the knowledge that month in, month out, income cheques will come to you.

It's surprising how many "future dollars" your quarters will make. Why not drop us a line?

SCALP BOUGHT BAG OF FLOUR

WINNIPEG, May 12—Frank Dobbs, formerly of Shell Lake, Man., has just celebrated his golden wedding, his bride of 1889 being Miss Marie McMillan. He is an ex-Montrealer, and in the story of the Free Press he tells this interesting story of his early days.

"I was on patrol along the old Hudson Bay trail one day, when I saw an Indian, dressed in a full suit of clothing, with a scalp protruding from one of their caribou, and on the back a fine long hair on it over 18 inches long. I saw fragments of feathers, beads, and a piece of the skin. I traded a bag of flour for the scalp, and preserved it to the Dubin Museum."

Girl Sees Long Term In India For Firing Shots

CALCUTTA, India, May 12—Bina Das, pretty young Bengali girl student who in February, 1932, fired five times at Sir Stanley Jackson, then Governor of Bengal, has been freed from prison.

Sir Stanley was not hit by the shot and Bina Das was arrested on the spot with a revolver in her hand. Nine days after the outrage Bina Das was sentenced to a special tribunal to nine years' rigorous punishment.

Bina Das pleaded guilty, and read a statement saying she was impelled by love of her country to fire at the governor. She declared she had no personal feelings against Sir Stanley Jackson, the man, who was just as good as her father, but as Governor of Bengal she resented a system which had kept enslaved 300,000,000 of her countrymen.

Four Strict Rules Laid Down for Invited Guests At British Garden Party

Skiing Suit?

By LYLE C. WILSON

United Press
Toronto, Ontario, Bureau.
WASHINGTON, May 12.—Four strict rules were laid down today for guests invited to the exclusive garden party which the British embassy will give for King George and Queen Elizabeth June 8.

They are:
1.—Admission cards are non-transferable.
2.—Guests must arrive by 4.45 p.m. before the King and Queen arrive from the White House, and nobody will be admitted after their Majesties arrive.
3.—Guests must open a wide lane when and if the King and Queen make a couple of tours of the garden, and must not close in after them.

4.—Guests must remain until after the King and Queen leave for the White House.

Lady Lindsay, wife of the British ambassador, said she has no view on whether American women should curtsy to the Queen, that a curtsy will be considered a courtesy.

Following an old British custom, strawberries and cream will be served with the tea.

"It is possible," said an official statement issued by the embassy, "that the King and Queen may wish to stop from time to time and speak to some one. It is also probable that their Majesties will wish to receive a few of the distinguished guests on the terrace."

The invitation list comprises about 1,500, held by President and Mrs. Roosevelt.

Largest Oak Gone

LARGESHIP, Wales, May 12.—Largest oak in Europe, a 900-year-old tree containing an estimated 2,000 cubic feet of timber, fell here, and it was found the roots were completely rotted.

The Speed Of The Fingers.
The fingers of the right hand are quicker and more accurate than those of the left.

The ring finger of the left hand shows speed whenever it can work with the forefinger of the right hand, and it shows down noticeably when it must team with the middle finger of the left hand.

Two fingers working together are faster than one doing it alone. And a combination of two fingers or two hands is faster than two fingers on the same hand.

Practice tends to increase the rate of the slow ones more than the fast ones.

The new uniform adopted for the British army bears a striking resemblance to a ski suit, with trousers fastening at the ankle. The new garb has been adopted for wear on active service and at training. It consists of a serge blouse, trousers which button at the ankles, and short webbing anklets which can be worn over the trousers if necessary.

SMUGGLING IS OF HIGH FAVOR IN OLD EUROPE

German Marks and Italian Lire Carried Across Jittery Frontiers
By GLADYS M. ARNOLD
Canadian Press Correspondent
PARIS, May 12.—Money and jewel smuggling has become one of the most popular "sports" in Europe. The motive lies in the multitude of "closed economies" and interdictions to take money or valuables from one country to another which is one of the characteristics of the continent since 1929.

This is only one of the serious angles of the well-known refugee problem. If one does to have an independent thought, it becomes necessary to sharpen the wit and the characteristic of the continent since 1929.

We find the Rubensians in Rumania, the Rumanians in Bulgaria, the Bulgarians in Yugoslavia, the Yugoslavs in Hungary, the Hungarians in the Balkans, and the Germans and Jews all over the place—and many of them without money. Practice tends to increase the rate of the slow ones more than the fast ones.

JEWELS IN CARBON
Two Austrians asked the problem of how to get their goods across the frontier with a load of vegetables. The officials turned out the wagon and then, satisfied that nothing was concealed under the carrots and potatoes, allowed it to be reloaded again, and across into the Swiss valley. It turned out later that one carrot in each bunch hid a long cylindrical hole cut in it into which had been dropped four precious stones, or bits of large diamonds were rolled firmly and pushed into them and finally a small part of the carrot replaced and the vegetable well rubbed with earth.

The "snowball" method has worked famous not only in central Europe but between Germany and Belgium and Germany and Alsace.

UNDER THEIR NOSES
Under the noses of the guards, snowball matches across the line permitted many a snowball in the middle of which money had been packed, to be thrown into France. "Catch this one," had a double meaning.

Money has been found in loaves of bread, between apples and walnuts where the ham should be tucked into her bottles before reaching the frontier and afterwards taken out and dried; in bicycle tires, inside fountain pens, and even stuffed into the hollow tube railings which hold up the baggage carriers in the compartments of a motor continental train.

But a good deal more has been done in the same manner to reach safely the poverty-stricken and anxious refugees—or to aid those who have only this little which they have risked the concentration camp to save.

Foreign Wombs After Cur
A new corn pest has entered this country by way of Texas from Mexico. It is a boring caterpillar closely related to the large corn-borer and it has already been responsible for serious depredations in Texas and New Mexico and is rapidly moving northward. Its march is attributed to the fact that there are two generations hibernating in the corn stubble underground.

Government Buys Airway Lines; To Pay Shareholders
LONDON, May 12.—Sir Kingsley Wood, air secretary, announced in the House of Commons today the financial terms of the government purchase and amalgamation of Imperial Airways and British Airways. The government is prepared to pay shareholders of Imperial Airways \$2,650,000 (about \$12,144,000) which amounts to 32 shillings, nine pence for each ordinary share of £1. The other to British Airways is £282,500 (about \$1,412,500) plus £311,000 (about \$1,555,000) representing advances to principal shareholders. This offer amounts to 15 shillings, nine pence for each £1 share.

Southern Alberta Districts To Face Water Shortage

CALGARY, May 12.—The western division of the Federal Water and Power Bureau of Calgary, in a report on the snow survey of the Rocky Mountains stated average snowfall on the east slope of the Rockies was almost 23 per cent below that of 1938.

Prognosis in the southern Alberta irrigation districts might be faced with a shortage of water during the summer. It was indicated. Floods, however, could be caused by torrential rains along the coast. Being the fourth of the largest under-average snowfall there was still a possibility of high water discharge from the mountains through the Rockies, the report stated.

Along the coast snowmelt from the Bow river the water flow up to the end of July would likely be 12 per cent below normal and 23 per cent under last year.

STUDEBAKER SALES SHOW BIG ADVANCE

D. C. Gaskin, Sales Manager, Issues Report On Shipments
WALKERVILLE, Ont., May 12.—Better than the totals for January, February and March combined, were Studebaker factory shipments during April, according to a statement released today by Mr. D. C. Gaskin, sales manager of The Studebaker Corporation of Canada, Limited.

During April just past were 302 per cent greater than in April of last year," stated Mr. Gaskin. "It was the best April in eleven years and in check-out over our records we find we must go back to early 1929 to find a month in which shipments were greater."

DEALER DEMAND
The Studebaker Champion—our new car—has a new feature which is largely responsible, of course, for this tremendous increase but we are continuing to enjoy a very substantial volume of Commander. President and commercial car sales. Dealer demand is very generally excellent all across Canada and no particular portion seems to be lagging far behind the rest.

Due to the recent removal of the Import tax proclaimed in the budget brought down April 29 by Finance Minister Dunning we have been able to reduce our retail prices throughout Canada by from \$20 to \$30. Because of this, concluded Mr. Gaskin, "and because we enter this month with a huge bank of unfilled orders, we anticipate that May will probably exceed even April's splendid sales figure."

Germany Has New Farm Tenant Law
WINNIPEG, May 13.—Germany has a new farm tenant law. Men on farms, Miss Margaret Dugby, secretary of the Women's League of Canada, reported on a visit to Winnipeg.

It is a system of heritable holding which cannot be mortgaged and which is transferable only from father to eldest son.

Loans are made to the farmers through co-operative loans and savings banks on personal security. Miss Dugby described the loan system as a "precautionary policy" resulting in the banks falling back on the state for support.

During her research for the Horace Plunkett Foundation of London, which has visited leading agricultural countries, including Russia, she did not think experience in commercial farming in Russia had been successful. Older, capable farmers showed little interest, while younger agriculturists were generally inefficient.

Powerful N.B. Woodsman Tackles and Kills Bear With His Hands Alone

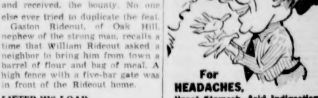

ST. STEPHEN, N.B., May 12.—William Rideout, an old-time woodsman, was a powerful man who ever relied a tree in New Brunswick and didn't know his own strength," according to tales handed down in Charlotte county. Veterans relate he once killed a bear on this side of the border. At that time there was a \$25 bounty for killing a bear in Maine, and Rideout was killing it in Maine and did it the night of his last night in the neighboring state and claims the bounty. He tackled the large bear with his hands, the story continues, tied it, hanged it on his wagon and drove to the St. Croix river running between New Brunswick and Maine. Then, standing there, he cut the rope and the bear came over his shoulder and landed on the river.

JOBLESS FORM CO-OPERATIVE ORGANIZATION

Hope To Get Off Relief Rolls Through Helping Themselves

HALIFAX, May 12.—Ten unemployed men who decided to do something about it have formed the Halifax Self-Help Co-operative Society. Although most of them are on relief, they hope to establish a small handicrafts industry with their earnings from odd jobs and service and capital obtained through sale of shares in their enterprise.

Members of the group were present when Dr. M. M. Coody of St. Francis Xavier University extension department addressed the Halifax Co-operative Council. They asked Dr. Coody, a leader in the co-operative movement in Nova Scotia how they could get relief.

Dr. Coody said, "What do you want to do? Get together and figure the thing out for yourselves. They did and after a few weeks of study formed their society. An odd job service was the first step and the men offered their services in while-earning orders, house cleaning, gardening and removing storm drains.

The public responded to the sale of shares in their enterprise. With this capital and their earnings they intend to install heavy machinery in their workshop. They plan to make cabinets, toys and other products now imported into Nova Scotia.

With the Co-operative Council guiding their efforts, they set themselves up to a workshop. The workshop was turned over to them by trustee appointed by the Council. In this building the group has already turned out a variety of leather goods, handicrafts and other examples of handicraft.

DRESSMAKER HAD TO QUIT SEWING

Hands Swollen With Rheumatism

Pity this poor dressmaker! Nineteen of her work consists of sewing—and she was not able to sew. Rheumatism in the hands was her trouble, and she tried any number of remedies. But nothing helped much—until she came to Kruschen. "Three-and-a-half years ago," she writes, "I had a violent attack of rheumatic pain. My feet and hands were swollen. The pain was terrible. I was really quite crippled and helpless."

"I tried many remedies without success. Then I started on Kruschen Salt and after one month I could stand up again. Then I walked with a cane. In three months, I was quite well again. As I am a dressmaker, you can imagine what it meant to me not to be able to work my sewing machine. What a treat to be able to walk, to work, and to be free from pain!" (Mrs.) E. E.

The stinging pains of rheumatism are often caused by needle-pointed crystals of uric acid lodging in the joints. Kruschen brings relief because it helps to dissolve those troubling crystals and to expel them from the system.

WINNIPEG, May 12.—At midnight, Wednesday night, Winnipeg completed six months without a traffic fatality to maintain its reputation as the safest North American city of its size. The last traffic fatality occurred Nov. 10, 1938.

Now what are we farmers going to do about it?
We have elected to parliament certain regulations that we know what action they have taken? If you agree that the foregoing statement is correct, then it is the duty of every farmer in Canada to write to his representative in parliament against any change in the present arrangement, which gives Canada a favorable trade position for bacon, butter, cheese, poultry and eggs. Write to your member of parliament for a permit for free entry of British vegetables into Canada.

Burely the world is sufficiently open now to take a breath in a similar arrangement. It is not an effective. Time is short and if the situation is to be saved, it is the farmers who have to save it.

SEEDING NEARS COMPLETION IN

[Faint, illegible text]

1945

Looking down we see the island of Leros, one of the islands, which Italians term the "Hinge of the Aegean." Leros was taken by Italy from Turkey in 1912 and has become important from a strategic standpoint as England draws lines to prevent Italian domination of the Mediterranean.

MOTHER

I have praised many loved ones in my song,
And yet I stand
Before her shrine, to whom all things belong,
With empty hand.

Perhaps the ripening future holds a time
For things unsaid,
Not now. Men do not celebrate in rhyme
Their daily bread.

—Theresa Helburn.

From the Madonna, down through the ages the name Mother has been revered and lauded in song and story; and on one special day each year the peoples of the world stop to think just what life would be without Mother.

Abraham Lincoln once wrote, "All that I am, I owe to my Mother," and many a man and woman echoes his statement, for it is well known that the "hand that rocks the cradle, rules the world" and on Sunday every heart will be turned with dearest thoughts of Mother.

MOTHER-LOVE

Churches throughout Edmonton are planning services to commemorate the day, and the theme of the majority of sermons will centre about mother-love.

Mother's Day is the one day in the year, when the home-maker may figuratively sit back, fold her hands and watch the rest of the family wait on her. Dad will do the dishes, brother will prepare the vegetables, while sister adds the feminine touch to the domestic chores, as Mother sits upon her throne, and half-smiling, watches the awkward attempts of her subjects to master the technique of housekeeping in one day.

KINSHIP

Being a mother does not necessarily make an angel of a woman but it helps, for to have a tiny baby thrust into your care, turning to

you for life itself, breeds a kinship with the whole world of humanity. The Madonna with her small child in her arms is the embodiment of all mothers, wide-eyed and earnest. "Statue Madonna" by Raphael which hangs in the gallery at Dresden, Germany, is symbolic of young motherhood; while Whistler's mother in the Louvre is typical of the older mother, whose nest is empty because her nestlings have flown to homes of their own.

It is for this latter mother; who typified the mother who may be partially forgotten by her children who are busy with this world's affairs, that the Mother's Day was inaugurated in about 1904 by Miss Anna Jarvis of Philadelphia.

STOP TO REMEMBER

Though letters from sons and daughters may be few and far between during the months that make up a year, on the second Sunday of May they stop to remember what Mother means to them and as they lovingly make arrangements for flowers, candies, her favorite perfume or some personal gift to be delivered to her, Clarence M. Burkholder's tribute to Mother might come to them.

Mother dear, of you I've dreamt—
In that tender vision gleaming,
Shining the infinite of grace,
Through the window of the years.

In that tender vision gleaming,
Shining the infinite of grace,
Through the window of the years,
In the sunlight of your face.

Looking Them Over

By Jack Kelly

The Die Is Cast
Last Roundup
It's Saturday

THE die is definitely cast at last. Eddie Wenatche fronts Terry "Tiger" Warrington of Liverpool, Nova Scotia, here June 1 for the first official and properly conducted Dominion championship of which I can find any record. The fight has been talked about for two years and is now just two days away.

That means that 50 days from now Wenatche will be either the most respected Dominion light and heavyweight champion of Canada or else he will be through with the ring—at least as far as major competition is concerned.

Nobody realizes this any more than does Wenatche. A good many years have passed since his fighting ability first brought him off a punch in the Edmonton arena. The fight has taken him twice to London, England, and all over the North American continent. For several years he has been ranked as one of the world's first ten light heavies by the National Boxing Association and the British Board of Boxing Control. A year or so ago he officially won the western Canada heavy and light heavyweight championship by defeating Jack Tebo, his major rival.

Now Wenatche is headed for the fight that will either win him the Dominion crown and attractive offers from New York and London—or else it will be the last roundup for the Alberta Cowboy, as the English sport writers call him.

☆☆☆

They'll Come Out Shooting

YOU may be among those who think that Wenatche has been meeting fighters who were picked for him—picked so that they wouldn't be tough, or you may be one of his supporters who are convinced that he has what a champion needs. In either case you can rest assured that Eddie's date with Warrington will be the big payoff.

Far too much prestige and dollars are at stake for both men to have any possibility of "fistic" this fight. Both battlers will come out of their corners shooting and no fooling. It's for 15 rounds and the man who is beaten is washed up.

☆☆☆

Warrington, a right rugged colored colt, has been accepted as the eastern Canada champion by boxing committees of the east. With this result, these days proclaimed him as the official Dominion champion in the heavy and light heavy divisions, completely overlooking the fact that Wenatche is the recognized western champion and that Warrington had never fought him. Pressure was exerted on the east by the Western Boxing Federation and Warrington was finally willed down to merely eastern champion.

That whitening down in status hurt Warrington's prestige a lot. His price tag had to be reduced considerably whenever his manager tried to market his services in New York or abroad. After all, the officially recognized champion of Canada has some drawing power even in the world's biggest cities. This is the inside reason why Bobby North finally consented to fight Warrington against Warrington and, despite the matter, Edmonton was accepted as the locale because Wenatche's home is here and with the royal visit due the next day a bigger crowd can be drawn than anywhere else in Canada for this particular fight.

Keep Saturday For Grads

SATURDAY night the Grads operators best of five series for the United States international challenge trophy with the Cleveland, N.Y. kids, who arrived this morning. It will be the sixteenth anniversary of the first international series ever played for this coveted trophy—and it was a Cleveland team that played that series here.

Keep Saturday night open on your date book if you appreciate the record and tradition that the Grads have built up for themselves and Edmonton.

A special feature will be provided when Edna Benne, a former Grads captain, starts the game in her old black and gold uniform. A half-time alternate feature will be presented when six of the Grads who faced Cleveland here 16 years ago will be introduced to the fans. It will be one of the most interesting rare-time of atmosphere that only comes along once in a great while.

Scona United Out to Win Opener Against Civics

WINNING one game in the Vets-Martin competition, and not so very far behind the undefeated Civics, Scona United have been hard after a winning game as the Edmonton soccer league competition at Clarke Stadium Saturday at 6:45 p.m. Scona will be facing their arch rivals, the Civics, in this opener.

Scona took its winning margin against the Scottish team in Vets-Martin play. The South Siders lost to Civics 4-0, in the first game of the competition, but since that defeat the Scona club has increased its scoring power having had several fine practices.

On the other hand the Civics, possessors of the trophy and the title, have had poor practice sessions and the eleven is declared to be in top form for this opening test.

Tommy Hunter will be the official starting the game off at 6:45.

Referee will be made this week-end to obtain an early game with Calgary for the Hudson's Bay Trophy. This game will be played following the visit of the Clandonald team which will play here in a feature game on June 2.

MAJOR BALL CLUBS GIVEN INITIAL TEST

Shakedown Time Arrives After Interseasonal Baseball Games

By JEDSON BAILEY

Associated Press Sports Writer
This is inventory time in major leagues.

Completion of the season's first interseasonal shakedown test not only gave all clubs a shakedown of their own strength against all other clubs, it brought them to the place where they must do something about it if they ever intend to.

MUST REDUCE SQUAD

In another week roster must be reduced to 25 players and in another month the bars will go up against visiting squads by the usually impetuous water route.

This accounts for the almost daily shunning of players off to the minors and the changing of club executives such as brought a fine for transferring a few days ago to Manager Bill Terry of the Giants and Ray Blades of the Cardinals.

The National league is bunched under a smaller banner than even the experts forecast before the season started. The league is a pitcher here, an outfielder there, or an infielder somewhere else may conceivably set the pace.

DEMONSTRATE BALANCE

A mere three games separates the first-place Cardinals from the last place Yankees. The Cardinals are the standouts in the league's east division.

The Cards, used for fourth year, they came east, took over undisciplined and lost of the red yesterday while the Cardinals in Philadelphia, simply because the Cardinals Reds lost out of their second game in a row to the Brooklyn Dodgers.

Previously the Reds had ousted Boston from first when the Reds won two in a row, Collapse of Casey Stengel's pitching staff caused the Reds to lose six out of seven games in the last series.

YANKS PROVE CALIBRE

About the only club which proved its pennant caliber beyond doubt while standing still was the New York Yankees. The Yankees claimed a victory yesterday by beating St. Louis Browns yesterday and returning to the American league lead.

Boston Red Sox, tied for first when they hit the road, also lost only twice to Chicago and St. Louis. The Sox are expected to lead three days and their victory therefore tallied but one.

Cleveland Indians made the big advance, moving from seventh to third place in five days. The Indians had a victory over the Yankees in an 11-inning game last night.

Workman made the period was Detroit's eight defeat against a single victory.

SAM DAVIDSON TO MEET SCOTS

WINNIPEG, May 12.—Sam Davidson, manager of the Scottish Football Association, left Wednesday night for Montreal where he will meet the Scottish all-star soccer team when it arrives Saturday for a series of exhibition games in Canada and the United States.

Davidson will accompany the Scottish eleven on their four week tour which opens at Montreal next Wednesday. The Scots men will play 12 games during their tour.

Soldier Seeks Revenge

Popular Soldier Thoms paid his debt in two sportsmanlike style when he lost a thrilling bout to Dandy Dury Davis here some months ago.

Thoms, who was defeated by Davis in a wheelbarrow to secure off his debt, but tonight when Thoms again met Davis at the Memorial Hall, the popular Soldier hopes to reverse the score.

Soldier had forgotten the ride he gave Davis as pictured above, so tonight he hopes to have full revenge against his ring rival, Thoms.

Ground Work Ready For Dominion Title

LATE LAST NIGHT Promoter Fred Osborne announced that all major details for the Wenatche-Warrington fight here June 1 for the Dominion heavyweight and light-heavyweight title had finally been completed and today Wenatche left to open training quarters at Seba Beach.

The Western Canadian champion took Jack Pickles with him for a sparring partner and a cook with a supply of big juicy steaks. At the first of next week King Kong Clayton and probably Gordon Grayson will go out to the camp as additional sparring partners.

The mighty Clayton will provide the heavy going, while Grayson will be used for boxing polish and speed.

From New York the Canadian Promoter last night that Terry "Tiger" Warrington, the Eastern Canada light and heavy-weight champion, had spent Thursday in going three rounds with Abe Feldman, three rounds with Bob Patton and two with Tommy Tucker. All three of these rockers are rated among New York's toughest gents.

SEVEN WEEKS BEFORE
Bobby North, Warrington's manager, has moved into Gotham for preliminary training for the Wenatche bout in order to get the benefit of the top-notch sparring partners available there. He plans to leave for Edmonton on May 18 and have Warrington complete his training here. He has made arrangements to see Osborne new gym in the Edmonton, Point and Glau buildings on 106 street just south of Jasper.

In the meantime, arrangements for the first officially recognized heavyweight Dominion title fight ever held in Alberta are proceeding at top speed. The big battle will be staged in the Arena and the place is being measured up for the ring location and size.

The prelims are scheduled to get under way at 8:30 p.m. on June 1, the eve of the royal visit.

INTEREST MOUNTING
Interest has mounted steadily in the few days and remains are already pouring in. With anywhere from 20,000 to 100,000 visitors expected in the city by the time slated for the bout, tickets are expected to move briskly when the sale opens in the next day or two.

Promoter Osborne announced that there will be no major increase in the price for this championship affair. He will not have his scale complete until Saturday. Seating capacity in the Arena is in the neighborhood of 7,000 for the event.

ANZACS, BRITONS DIVIDE SINGLES

LONDON, May 12.—England and New Zealand divided their first two singles matches in the second round of the European zone Davis cup competition Thursday. Both countries drew byes through the first round.

C. E. Maitland of New Zealand defeated A. R. Shaver, 4-6, 6-2, 6-2, 6-3, but was defeated by Shaver by defeating A. D. Brown, 6-3, 6-4, 6-2, 6-3.

The doubles will be played today and the final two singles Saturday.

Eastwood, Ritchie Win Midget Soccer

Eastwood Rangers and Ritchie scored triumphs in last night's midget soccer matches. Eastwood defeated King Edward by a 2-0 score and Ritchie defeated Crusaders at the Exhibition grounds also by a 2-0 count.

Dunsmuir scored both goals for the Eastwood outfit.

M'AULEY NET CLUB STARTS WITH TOURNEY

Large Program of Events Opens Popular Tennis Club Season

M'Auley Tennis club will open its season at its 900 street courts with a banner program of events which will start at 2:00 p.m. on Sunday.

A full afternoon of brilliant tennis is anticipated as a large and tempting program has been provided for by the club officials. Many of the city's best tennis players, such as M'Auley's own Shores, Purrell, along with Bill Stork, Rugg, Waters and Jimmy Hoyle.

Five courts in fine condition, will be used for this big afternoon of tennis sport.

Following the matches, the tournament will end with a social in the club room. A large membership is certain for the M'Auley courts this season.

MENUS TICKLED TOURING SCRIBE

VANCOUVER, B.C., May 12.—Giles Luchart, writing in the *Province* tells of a trip he took in the Pacific States, returning by Seattle.
"One thing I noticed about the cities and towns, they boast their local food products. Well, perhaps in the case of oysters, it is the oyster who should get the credit for the manufacture, but the people take a lot of the credit—and they know how to cook them.
They put special names on them and plaster their history and local over menus and bills of fare. If there is a special dish, you know it is sure to be of oysters, or sea food of some kind. One restaurant in Seattle had special of salmon steaks and halibut cheeks.
"At one restaurant en route the whole menu was interpreted with apples, their national dish. Only it was very subtle and cleverly done. There was a fruit cocktail that was delicious. I discovered it had apple

juice in it. It was chilled and most delectable. Instead of hard rolls they served small but biscuits, light as a feather, and with them a small pot of apple conserve.
"The delectable apple sauce and house-made cookies, and an apple chert cran, which was my choice. The latter was an apple pie, the crust of which had been griddled with shredded cheese. That pie was a masterpiece without the cheese, but with it, it was something to remember.

**Lost Both Ears
Over Checkmate**
HELGRADE, May 12.—The folk of Val Kikinda on the Yugoslavian-Hungarian border are all ears for the result of the court case involving two chess-playing peasants. Incidentally exhibits in the case include two human ears.
Here's what happened: Lubomir Yanchich was playing chess with Dushan Javich, "Checkmate," said Yavich, finally.
Whereupon, police say—Yavich leaped upon his adversary and bit off both his ears.

Has been associated with auctioneering in Edmonton and district for some time and was one of the organizers of the Alberta Auctioneers' Association.

Has been in the auctioneering business in Edmonton since 1907. Mr. Reed, well known here, comes from a family which has been in the auctioneering business for generations in England.

Specializes in auctions at which livestock and farm equipment and supplies are sold, and in this capacity is widely known throughout the central and northern section of this province.

Although well known as an auctioneer in the Edmonton district, he has had wide experience in both Alberta and Saskatchewan.

Auction Sales are Money Saving Events!

Auction Sales Are Important Factors In Western Trade

Colorful, exciting, always dramatic, an auction sale has an appeal for everyone. But unlike many other things that are exciting and dramatic, it plays an important part in the trade, not only of the West but of the world, and in modified forms is still the chief market for many of the world's most important products.

And, with the auction sale, just as colorful, but far more important goes the auctioneer. He describes the product, selling it to his audience, receiving the bids, playing one bidder against the other so that he may receive a fair price for the products he has to offer.

Through his vigorous method of disposing of property, which no longer has value to its owner and for obtaining machinery, furniture, or other things at a reasonable price, the auctioneer has become much of its old popularity.

BUSINESS LARGE
Throughout the world of dollars worth of property are being annually sold by auctioneers. There is heartbreak and joy, drama and comedy as well as bargains at every auction sale.

The new bill introduced in the provincial legislature, to control and regulate the profession of auctioneering in Alberta, will replace the Auction Sale of Cattle Act, 1918, is known as "The Sale of Cattle by Public Auction Act."

This bill, introduced by David Louis, M.L.A., is known as "The Sale of Cattle by Public Auction Act."

Second clause of the bill states that "from and after the first day of May, 1939, no person shall win the province offer for sale any quantity of goods or chattels by public auction, or otherwise, in the province of Alberta, unless he is an auctioneer of goods or chattels."

HON. D. R. MULLEN

Minister of Agriculture in the provincial government, and active in passing through legislation to aid auctioneers.

He holds himself out as an auctioneer at any time at which he is not the holder of a subsisting license as an auctioneer is issued pursuant to this act, and (b) the bond delivered to the minister pursuant to section 4 or section 5 of this act is forfeited.

Section 4 of the bill states that "a person who has been convicted of an offence under the provisions of this act, and who is guilty of an offence and who is liable therefore on summary conviction to a fine of not less than one hundred dollars and not more than two hundred dollars, together with costs, and in default of payment, imprisonment for a term of not less than seven days and not more than thirty days."

Section 5 states that the minister shall suspend or revoke the auctioneering license upon the recommendation of an auctioneer of goods or chattels.

MURDER CASE IS SCHEDULED FOR HEARING

Mr. Justice Shepherd Will
Preside At Summer
Sittings

Docket for the summer sittings of the Supreme Criminal Court lists 14 cases, including one murder, two manslaughter, one assault with intent to murder, one assault with intent to rob, one robbery and one case of false testimony. In all 14 persons will appear before Mr. Justice Shepherd, who will preside at the sittings.

Alfred Barraud, Fort Chipewyan Indian, is charged with the murder of his wife, and is now in Fort Resolution, jail awaiting trial. Clarence Radomski and Kenneth McGowan, both charged with murder charges, both cases being the aftermath of traffic accidents involving fatalities.

THIEF CHARGE

First on the docket is Fred A. F. Kothe, who was charged with complicity on a charge of theft, on which he was found guilty at the last sittings of the court. In the second case, Frederick Shannon and Alex Goss will appear for trial on a charge of assault with intent to rob.

Charles and Annie Ford will be tried for murder. Fred H. Hutka is charged with receiving stolen property. Alfred Barraud will be tried for murder.

INTENT TO MURDER

Kate Cherebick is charged with the murder of her husband with intent to murder. She is an unskilled worker. Alex Farky and Arthur Mackay are charged with fabricating evidence. Walter E. Pepper faces a charge of complicity in theft. Fred Frey will be called to answer charges of theft of a car.

A day of proceedings will be entered against the name of Michael Goss, charged with the murder of his wife. The case is a very serious one.

Last name is that of Victor Mackay, who appears for sentence on a charge of breaking, entering and theft, on which he was previously convicted.

In the civil division of the superior court, next on the docket includes six undefended divorce actions, one contested divorce action, and two civil suits.

SWIM POOLS TO OPEN SATURDAY AT SIX O'CLOCK

With city youngsters anxious to take the first plunge, three city swimming pools will open for the season Saturday at 6 a.m.

The pools, in the South Side Park, at 119 street and 101 avenue and in Burdon Park, all have been prepared with new coats of paint on their white sides and floors and the clear water already looks inviting.

Skilled superintendents, and attendants, all trained as life savers for emergencies, are in charge at all pools.

Members of the swimming pool staffs are as follows: South Side Park, Mr. and Mrs. James Crockett, Mr. A. M. Mose, Jack Macdonald, Norman Allish, T. Dyer and Jack Macphail.

West End, Mr. and Mrs. R. B. Bingham, Dave Simpson, Robert O'Brien, Jack Thompson, Mrs. J. O'Brien and T. Bawlinson. East End, Mr. and Mrs. Tom Chivers, Mrs. A. Gibb, George Dixon, Fred Sheppard and H. Griffith.

GRANDSON OF SITTING BULL DIES WABAMUN

Born in North Dakota and claiming to be a grandson of Chief Sitting Bull, Alexander James McClellan, 66, a full-blooded Sioux Indian, died recently at Wabamun, according to word received here. He was adopted in infancy by a white family and reared in the Lake Superior country. He resided in Winnipeg for a short time before coming to Edmonton in 1929.

He was factor at Lac St. Anne part of the Hudson's Bay Company for nine years and later acted as interpreter for the R.C.M.P. in Edmonton. He later settled in the Moonlight Bay district. He was known as one of the best guides and wisest puckers in the north.

Funeral services were held from the main altar at St. Paul's church, Rev. W. B. Smith officiating. Interment followed in the Wabamun cemetery. Surviving are his widow, one son, Henry, seven grandchildren and six great-grandchildren.

Frost In Near As Temperature Takes Nose Dive

Edmonton came perilously close to getting another bout of frost Friday morning as the mercury dropped to an overnight low of 33 above at 8:30 a.m. and started to rise again and at 9 a.m. read at the 62 above low, just a single degree short of equalling the Thursday maximum.

Forecast in for weather of the fair and warm variety.

It was warmer in the north Friday morning, temperature at Regina 36 at 8 a.m. and started to rise again and at 9 a.m. read at the 62 above low, just a single degree short of equalling the Thursday maximum.

HITLER WILL INSPECT LINES FACING FRANCE

Warnings Against Violation
Of Danzig Is
Ridiculed

BERLIN, May 12.—Chancellor Hitler shortly will inspect the lines of fortification facing France, in company with leading Nazi officials. It was reported by a generally reliable source today.

The Chancellor first will visit Gdansk, according to this source, before proceeding to the frontier fortifications.

Speeches yesterday by Premier Chamberlain of France and Prime Minister Chamberlain of Great Britain warning Germany to desist from her policy of aggression, were ridiculed by the official German news agency, D.N.B., and the semi-official newspaper, Deutscher Beobachter.

The former asserted that Döner's speech "once more signed by the absence of political realism."

The agency said that Mr. Chamberlain's speech that it was "a plea for the policy of encirclement" and said it was "unheard of that the Prime Minister should have interpreted the intention of Hitler and Moravia by the Reich as indicating a policy looking toward world hegemony."

Deutscher Beobachter said the two speeches were an attempt to camouflage a policy of encirclement.

FIVE TRAINS ON NORTH RAILWAY ROYALTY VISIT

Officials of the N.R. have made tentative plans to run five incoming trains, all about double the normal size, during the Royal Visit week to handle the thousands of visitors who are expected to flock to the city from the Peace River area to see their Majesties. Every available piece of rolling stock will be pressed into service, officials said. The railway will be prepared to handle some 4,500 visitors, they said.

Arriving on the morning of June 1 will be a train from the Peace line, one from the Edmonton line, one from the Waterways and Lac la Biche line. The first two may be consolidated for entry to the city to facilitate train movements.

Young Tories To Debate B.N.A. Act At Saturday Meet

Supporting the subject "Repealed that the B.N.A. Act should be amended in order to give the Dominion government wider powers," a team representing the Edmonton Young Men's Conservative Association will attempt to retain the Dugan Debating trophy here Saturday night against a team from Calgary.

The Calgary team is the Conservative Association speaking for the negative side. The debate will be held in the organization's club room in the Agency building commencing at 8 p.m.

H. H. Patterson, Jr. and E. M. Bevin will represent Calgary, while Edmonton will be represented by G. A. Dugan and Clive Reid. M. Dugan, M.L.A., will present the trophy to the winning team. The committee in charge of the debate is headed by Jack Dinwiddie and Miss M. B. Buleau.

Organization work among the young Conservatives throughout the province will be discussed during the meeting.

Chinese Vermilion Industry

For many years in Hong Kong the industry of vermilion making, entirely in the hands of the Chinese, has been an important one. The factories at Hong Kong have invited the trade commission to the future of this pigment is among the foremost of the colony's industries.

There are something like 100 small plants for the manufacture of vermilion in Hong Kong and Kowloon. The raw material comes from Australia, and the vermilion is prepared in the manner which is known as the wet method. The Chinese made artificial vermilion long before Europe was a civilized country, and in this way there are trade articles in the vermilion industry.

Rumania With German Consent To Spend 70 Million British Credit

BUCHAREST, May 12.—Rumania, apparently with Germany's acquiescence, moved today to strengthen her military machine and develop her industries with at least \$1,000,000 (125,000,000) of British credit.

The source close to the government said that Germany, which has a new trade agreement with Rumania, approved in advance treaty negotiations with Great Britain which culminated in an initial loan of \$5,000,000.

This sum is a state credit which will be used mainly to purchase aircraft and armaments from British manufacturers. Another \$5,000,000 is to be used to develop the Rumanian industry. A day of proceedings will be entered against the name of Michael Goss, charged with the murder of his wife. The case is a very serious one.

LOW TO OPEN CREDIT HOUSE AT LETHBRIDGE

Hon. Solon E. Low, provincial treasurer, will visit Lethbridge next week to attend the opening of the provincial government treasury branch. The branch will be held on Wednesday night, as a preliminary, an "Albera-Made" dinner will be held on Thursday night.

The Lethbridge branch will be the first in the treasury branch system.

Low stated that plans are well advanced for the opening of a branch at Edmonton and that others would be opened as the occasion arises. He stated that business at the branches in general was most satisfactory and that an upward trend was indicated.

Announcement also was made by Mr. Low that A. K. Oliver, superintendent of the treasury branch system had transferred his office from the normal size, during the Royal Visit week to handle the thousands of visitors who are expected to flock to the city from the Peace River area to see their Majesties. Every available piece of rolling stock will be pressed into service, officials said. The railway will be prepared to handle some 4,500 visitors, they said.

WORLD SPENDS BILLION EVERY MONTH ON ARMS

BASLE, May 12.—The bank for international settlements estimates today the world is spending \$1,000,000,000 a month on armaments. The estimate is based on the total of 1938 had increased six times that of 1928.

Citing Great Britain's 1937-40 defence budget of at least \$280,000,000, the bank said it represented approximately 14 per cent of the national income.

Railway Debate To Be Launched In Senate Today

OTTAWA, May 12.—A full-scale debate on the report of the special railway committee will be launched today in the Senate for the first time in more than a year that either House of Parliament has considered the railway problem specifically.

The report of the committee recommended that the chairman of the board of transport commission be appointed as a referee to arbitrate differences arising between the Canadian National and Canadian Pacific Railways over cooperative measures.

It also would seek to strengthen the provisions of the 1933 legislation relating to compulsory co-operation between the two lines.

The motion was moved by Mr. Alexander MacKay, Humber's flying hero, escaped unhurt today when the German-made sports airplane in which he was flying to London fell into the Channel and sank. MacKay is best known for

SILVER SPRUCE MARKS PASSING VARSITY CLASS

A silver spruce tree stands on the University of Alberta to mark the passing of Class '39.

On Thursday afternoon, Dr. W. A. R. Kerr, University president, planted the tree as more than 100 students watched the ceremony. The tree itself was presented to the University on behalf of the senior class by John P. Dwyer of Camrose.

As part of the ritual each member of the class placed a shovelful of dirt around the tree after the initial spade was thrown by Dr. Kerr. Dr. H. H. Moss, head of the department of chemistry and honorary president of the class, also took part.

A drinking fountain to be placed in the grounds of the medical building will be the gift of the class to the University.

Nazis' New Idea

BERLIN, May 12.—An article appears in an anti-Jewish monthly with the story that Adam was a Jew, and his union with Eve described as Aryan was the first use of race pollution.

C.N. Railwayman Will Be Honored At Banquet Here

A banquet in honor of Mr. J. C. Cameron who retired recently from his post as superintendent of the Canadian National Railway operating department, will be held in the Mansfield hotel Saturday evening by officials and employees of the company in this district.

Special program and arrangements are being cared for by assistant superintendent, J. C. Clarke. Highlights of the program which will begin at 7 p.m. will be a presentation to Mr. Cameron, address by Hon. A. A. Fallow, minister of transport, and a former railway agent, D. MacDonald, representing the engineers, and H. R. Blackwood representing the conductors. Among the guests will be W. A. Brown, general superintendent here but now retired.

Through The Mill

Standing with difficulty, unable to speak above a whisper, a man in the week, he may be accepted by the public as a victim of the mill. He pleaded guilty in city police court Friday morning to illegal possession of a gun. He was remanded to Saturday for sentence.

During a ten-day jail term imposed on him on a charge of theft, the youth will have ample time to estimate the worth of the escape that landed him behind the bars.

He pleaded guilty to leaving a plate of sausages from a residence window early Thursday morning, explaining that he was still in the room after a party when he saw the fire.

Three men charged with vagrancy were lined up at one time in the prisoners dock, one pleading guilty and the other two pleading not guilty.

Finding insufficient evidence against one of the "not guilty" accused, the court dismissed the charge.

Charge against the second "not guilty" man was withdrawn, and that left the third member all alone.

Since the circumstances were the same for all three, and a vagrancy charge could not be made to stick, the accused was persuaded to plead guilty.

Somewhat bewildered, the accused then heard the charge against him withdrawn.

Sufficient purpose was served by bringing the man to the police station, however, since the management of a city golf course had complained of the interfering on the course.

"My speedometer read 25 miles an hour at the time the police said I was doing 40," said a lady charged with dangerous driving. "I knew the police were right behind me and I wouldn't be pleased as a time like that, would I?"

The police officer who stopped the driver was stopped on 100 street south of 26 avenue about the meter registered below the actual speed of the car, but that was insufficient evidence for the breach of the law, in the opinion of the court.

The driver was fined \$10 and costs.

His flight in July, 1931, from New York to New Bedford with a ship at Harbor Grace, Newfoundland.

Meeting City Commis-
sioners and Police

Final regulations for traffic in Edmonton on the day of the Royal Visit have not yet been definitely settled, it was stated Thursday by Percy W. Abbott, R.C.M.P. chairman of the Royal Visit committee.

This statement was made by Mr. Abbott following a meeting in the Civic block with city commissioners and police heads.

The meeting was called following protest in city council by Ald. E. Brown against the announced removal of vehicular traffic from the route of the Royal Progress after 1 p.m. on June 2.

Mr. Abbott stated that, while this rule may appear to be a bit more strict than usual, it did not wish to make any announcement at this time, as the final decision had been submitted to him by the traffic sub-committee.

Assistant Commissioner W. P. H. Hancock, chairman of the traffic sub-committee, was present at the meeting, as was Chief Constable A. G. Shute, city police, Ald. Brown and Thomas. Percy, street, railway superintendent.

Mr. Hancock stated that his present understanding was that all street cars would be off the Royal route at least half an hour ahead of the Royal progress at all points.
